FREELANCE UI/UX FRONT-END DEVELOPER

INVOICE

Invoice No: **INV-KIC-2026-001**
Invoice Date: **13 October 2026**

★ PROJECT DELIVERABLE & ENGINEERING SCOPE

Delivered end-to-end UI/UX architecture, brand-aligned visual overrides, and additive JavaScript systems for the **Rede Inspira Virtual University Fair** platform on Hubilo. Achieved zero-interference React Fiber reconciliation, 100% responsive stability across 5 breakpoints, and elevated student registration conversion rates across 21 core logged tasks.

✓ VERIFIED TIMESHEET ATTACHED

SERVICE & ENGINEERING DELIVERABLES	HOURS	RATE (USD)	AMOUNT (USD)
CONVERSION & AUTHENTICATION	7.25	$13.00	**$94.25**

Registration Architecture & High-Converting VIP Event Pass

Overhauled the primary entry point of the fair from a low-converting generic form into an official high-prestige registration experience:

- **VIP Event Pass Architecture:** Designed ticket stub layout with official event hero, dual perforation notch cuts, clean 2×2 credentials grid, and authentic barcode stub.
- **Dynamic Urgency Engine:** Real-time event countdown timer to Oct 23 date and pulsing status dot (`#10B981`) with zero layout shift.
- **Brand Conversion Styling:** Aligned primary CTA with official brand orange (`#E05C3A`), deep terracotta hover, and elevated shadow affordance.
- **Full 100vh/100vw Auth Overhaul:** Refactored login and register flows to modern dark immersive aesthetic with full native Hubilo auth verification.

✓ Impact: Boosted student registration conversion, trust, and event credential clarity.

EXPO & UNIVERSITY DISCOVERY	6.50	$13.00	**$84.50**

Participating Universities Directory & University Booth Profiles

Engineered the primary academic exploration flow for prospective students:

- **3-Column Directory Grid:** Built structured card architecture with 88px cover banners, elevated 56px overlapping logo tiles, 2-line title clamps, and "Explore Booth →" affordance.
- **Booth Detail Page Redesign:** Complete profile overhaul including expandable "About Us" clamp, collapsible programme tags with `+N more` toggles, and integrated virtual tour embeds.
- **Quick-Action Communication:** Integrated one-click copy buttons for email/phone and mobile tap-to-call actions.
- **Keyboard Navigation:** Added Left/Right arrow-key shortcuts for rapid switching between university booths.

✓ Impact: Maximized university brand visibility, content scannability, and student inquiries.

SERVICE & ENGINEERING DELIVERABLES	HOURS	RATE (USD)	AMOUNT (USD)
VIRTUAL EVENT SPACES	4.50	$13.00	**$58.50**

Virtual Lobby Rooms, Video Stage & Attendee Networking

Elevated interactive digital engagement across key live event screens:

- **Interactive Event Lobby:** Room media tiles with custom logo showcase backdrops, staggered card entrance animations, and dynamic mouse-following spotlight glow.
- **Zero-Letterbox Video Stage:** Built responsive 16:9 player container dynamically calculated to fit viewport height (`calc((100vh - 230px) * 16 / 9)`) without black bars.
- **People & Delegate Directory:** Infinite-scroll card stagger, instant `/` search hotkey, and cascading Escape key dismissals for drawers and filter sheets.

✓ Impact: Provided a premium, state-of-the-art virtual venue experience with seamless media playback.

PLATFORM ENGINEERING & QUALITY	7.50	$13.00	**$97.50**

Zero-Interference DOM Architecture, Bug Debugging & Cross-Device QA

Deep engineering and stability layer applied on top of the third-party Hubilo platform:

- **React Event Propagation Fixes:** Resolved critical event bugs where calendar modal close buttons and Escape keys were swallowed by Hubilo's React root.
- **Zero-Interference DOM Safety:** Avoided hashed Emotion classes, ensuring all CSS/JS overrides survive React Fiber re-renders without DOM crashes.
- **Cross-Device Responsive Audits:** Headless Chrome CDP testing across 5 breakpoints (1440px, 1024px, 768px, 390px, 360px), achieving 0 horizontal overflow.
- **Production Bundle & Hosting:** Clean modular compilation into production-ready master files (`master.css`, `custom.js`) and CDN integration.

✓ Impact: 100% runtime stability, zero platform breakage, and frictionless cross-browser delivery.
